October 2021
Software Engineer Position

Dear Sir/Madam,

Please accept this letter as an expression of my interest in the Software Engineer position. I am a highly motivated and progress-focused Software Engineer. With a track record of initiative and dependability, I have devised strategic initiatives which I believe will prove valuable to you.

I have industry experience working with REST APIs, SQL, Python, JavaScript. Projects I work on are proven to add value to employers and clients, such as creating metrics and integrations utilized in presentations to venture capitalists. I have demonstrated abilities to develop seamless API integrations and automations, which have later been utilized to reduce manual data entry and data redundancy.

I was delighted to see your job offering, and I know that should I be considered for the role, I will not disappoint.

Sincerely,

Andrew Harrop
